BootLoader Reset

Server Address

IP: 192 168 25 141

Port: 9090 Set

Client Address

IP: 192 168 25 203

TCP Timeout: 0 Set

GPIO setting: this only for FCC and latest bootloader version. This function will be enabled later on other countries reader.

First Screen

To apply the settings by clicking "Set" button.

TCP timeout: please set it to zero to avoid timeout at CS203

Notes : If you change any parameters on Server address or Client address, you must reset the CS203 device.
